

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Original) A backrest for chair comprising
frame elements arranged in pairs at right and left sides,
a flexible support member that bridges the frame elements to support a load of a body of a seated person and
an adjust mechanism that can change a bent degree of the support member in multiple states and that can maintain the state against the load of the seated person
wherein the adjust mechanism is at least one engaging structure between a pin mounted on either one of the support member and the frame element and at least one engaging hole formed on the other of the support member and the frame element, and an engaging portion, wherein the position the pin engages the engaging hole can be varied.
2. (Original) The backrest for chair described in claim 1, wherein the adjust mechanism is arranged at least one of the right and left sides and
the bent degree of the support member is varied by selectively fastening one end side of the support member to one of multiple different portions of the frame element locating at a corresponding side.
3. (Canceled)
4. (Canceled)
5. (Currently amended) The backrest for chair described in claim 3~~1~~, wherein

the engaging hole has multiple engaging edge portions that make an engagement with the pin so as to ~~tie up~~ hold the pin when the load of the seated person is applied to the support member and the engaging edge portions ~~are communicating~~ communicate with each other and wherein the pin can be changed from a state of engaging a engaging edge portion to a state of engaging another engaging edge portion by ~~operating~~ moving the pin ~~to move along~~ the engaging hole.

6. (Canceled)

7. (Withdrawn) The backrest for chair described in claim 1, wherein the adjust mechanism changes a bent degree of the support member by changing a length of a portion that makes a bent transformation when the load of the seated person is applied to the support member.

8. (Canceled)

9. (Withdrawn) The backrest for chair described in claim 7, wherein the adjust mechanism is arranged at least one of the right and left sides

and one of multiple different portions at one end side of the support member can be selectively fastened to the frame element ~~locating~~ located at a corresponding side.

10. (Canceled)

11. (Withdrawn) The backrest for chair described in claim 7, wherein the adjust mechanism acts on at least one end side of the support member wound inward through the frame element so as to change a length of a portion of the support member that bridges front faces of the right and left frame elements.

12. (Currently Amended) The backrest for chair ~~described~~described in claim 1, wherein the adjust mechanism has an operating portion to operate the support member in order to change a bent degree of the support member and the operating portion is exposed to a side portion of a back face.

13. (Original) The backrest for chair described in claim 1, wherein the support member is arranged at a height generally corresponding to a lumber of the seated person.

14. (Original) The backrest for chair described in claim 12, wherein the support member is arranged at a height generally corresponding to a lumber of the seated person.

15. (Currently amended) The backrest for chair described in claim 1, ~~wherein further~~ comprising a covered generally bag-shaped upholstery member ~~is covered~~.

16. (Currently amended) The backrest for chair described in claim 13, ~~wherein further~~ comprising a covered generally bag-shaped upholstery member ~~is covered~~.

17. (Currently amended) The backrest for chair described in claim 14, ~~wherein further~~ comprising a covered generally bag-shaped upholstery member ~~is covered~~.
